

## Overland Storage Compatibility Guide

The Overland Software and Hardware Compatibility Guide lists which software and hardware have been tested for interoperability with all Overland products. Overland Storage performs on-going interoperability and extensive solution testing with these software and hardware packages to provide fully certified and supported data protection solutions

- *This document is intended as a quick reference only for software and hardware that is compatible and supported to work with Overland Storage products. Any exceptions will be noted.*
- *This revision supersedes and replaces all previous revisions*

**NOTE:** *Overland Storage recommends that you always use the latest firmware version in all your devices*
